

Graphic Designer at BlueThrone

BlueThrone is an exciting 100% “work from anywhere” startup company.

After fundraising a super successful seed round, we are currently in the Growth phase. Our founders are experienced in building successful companies in the mobile applications world, and we just got funding from top investors, who themselves brought their startup to a unicorn valuation.

They strongly believe in our successful business model and our ability to become a unicorn startup even faster than they did :)

Our business model is to acquire existing mobile apps, appreciate them by using Advanced marketing strategies, AI algorithms, and centralised technologic control infrastructure, and then drive massive growth based on the income from those apps.

And now?!

We are looking for hungry, challenge-seeker EXPERIENCED talent to join our core dream team!

In BlueThrone, the Graphic Designer will be responsible for creating all the graphic needs of the company, especially in 2 main areas:

1. Create all the visual materials for BlueThrone's User Acquisition campaigns.
2. Work on our mobile apps conversion screens and features (including UI)

Requirements:

- Rich experience in graphic design of User Acquisition campaigns.
- Ability to read and analyze the impact of a great design on business results.
- Experience in various verticals and niches.
